Class History

The senior class of 1955 entered the doors of Blunt High School with the enrollment of five. They were Mike Eckman, Norman Kirsch, Lynette Junkman, Lorli Giziewski, and Phyllis Yeager. The entire class participated in basketball and softball. The boys also took part in track and the girls sang in the glee club. Lorli was a cheerleader and took part in the play "The Adorable Imp".

In the sophomore year, Jim Stuart transferred from Pierre increasing the class to six. The entire class took an active part in outside activities, including work on the "FLASHLIGHT". "A Letter From Mexico", the junior play, included in its cast all six of the class. Lynette and Lorli were cheerleaders.

As juniors, there were still six of us. We were in charge of the lunch stand at all the home basketball games to raise money to sponsor the Junior-Senior Prom and Banquet. We took an active part in all sports again and also presented the junior play, "Winning Schemers". Lorli was our representative to Girl's State.

At the beginning of the senior year, Norman Kirsch dropped out of school and moved to Minnesota. This left Mike Eckman, Jim Stuart, Phyllis Yeager, Lynette Junkman and Lorli Giziewski. Class officers are: President-Jim, vice-president-Phyllis, secretary-treasurer-Lynette. Lorli is valedictorian and Lynette is salutatorian. Lorli and Mike were Carnival King and Queen. All five were in the starting line-ups in basketball and Lynette was a cheerleader. We sponsored a dance and presented the play, "Have A Heart", to raise money for our senior trip. Lorli was chosen DAR candidate. The entire class put out the school annual, the "MONARCH".

Class Prophecy

We, the junior class of 1955, take a fast and fleeting glimpse of the senior class of 1955 in the year 1965.

LORLI GIZIEWSKI is now famous for her greenhouse and has just discovered a new way in which to graft roses.

JIM STUART, better known as James "Liberace" Stuart, will make his first appearance in Carnegie Hall next week.

PHYLLIS YEAGER has just taken the position of general manager of a large construction company building plastic towers.

MIKE ECKMAN is now a great professor and mathematician in the Southern South Dakota College which he founded in 1957.

LYNETTE JUNKMAN has given up her school career to take free piano lessons from her husband, Libby.

Class Will

We, the seniors of the class of 1955, being the generous, healthy, wealthy, and young-minded group that we are, have come to an agreement on the distribution of our most valuable and important properties, viz., our self-satisfaction, our wisdom, and our importance, which will be combined together in this short note of farewell and may be dramatically, though possibly not originally, called our last will and testament.

There has come to pass among our remaining ranks a silent yet mutual feeling of satisfaction that our duties and unusual achievement have been well executed and will live for many years hereafter, but being the cautious group we are, and not wanting to take any chances, we suggest that our names and a few of our outstanding deeds be inscribed upon a placque and with great consideration, this placque to be placed in such a position that it will catch the eye of all who happen to enter the doors of dear old Blunt High School.

And in this manner do we dispose of our possessions.

James Stuart wills his natural ability to broad jump, which will be in excellent condition due to lack of use, to Dale Osterkamp, who will also keep it in fine shape.

Lorli Giziewski wills her antique pencil to Duane Osterkamp on one condition, that he never uses it.

Lynette Junkman wills to Janice Kirsch and Karen Big Eagle her dearest possession, Jim.

Phyllis Yeager wills her job at the Drive-Inn to any two people who think they can handle it.

Michael Eckman wills his ability to dribble a basketball behind his back to Jack Bartlett, who will make good use of it in the coming years.

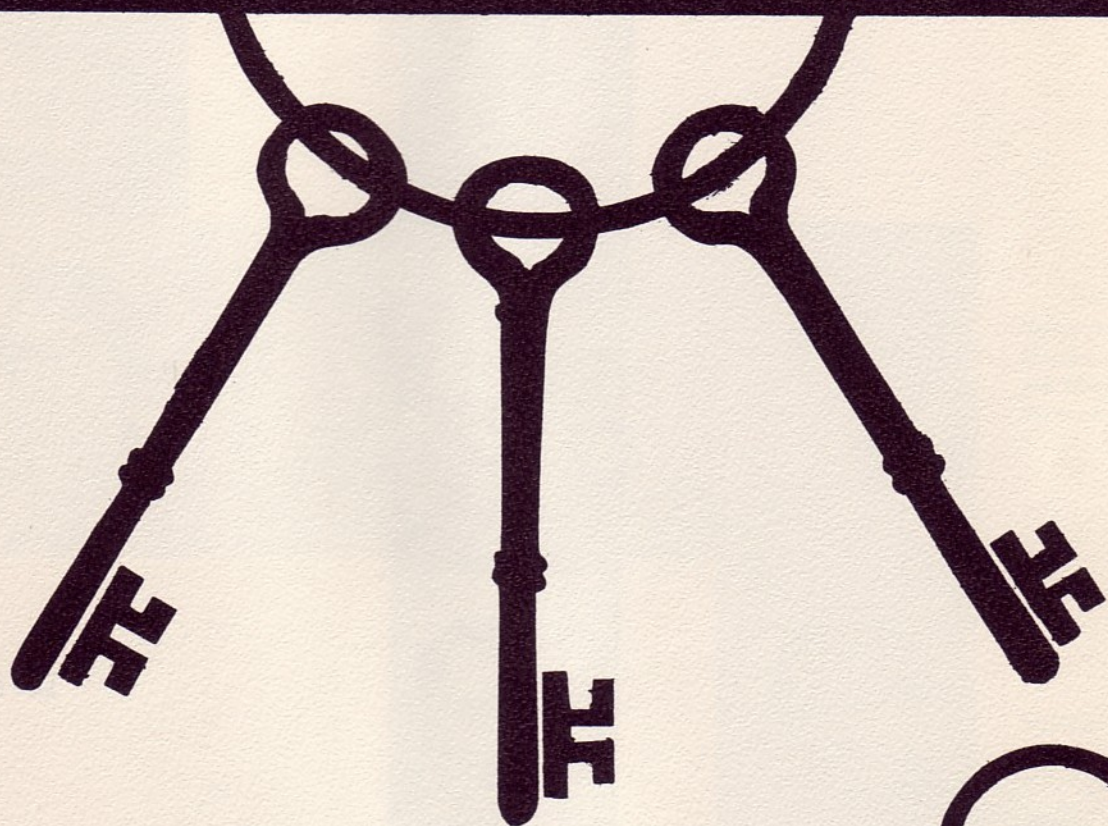

And, as a class, we wish to leave to the coming seniors our sincerest regrets that we have nothing more to leave them than five well-worn desks.

Although we hate to part with them, we will our sweet dispositions and ability to get along with each other to the coming junior class.

To the coming sophomores, who are a very active class and will undoubtedly need a means of transportation, we leave them one 1941 Mercury convertible.

To the coming freshmen, we know nothing of what is coming in the next four years, we will our ability to get back in school after being kicked out.
