SENIORS

Senior Class History...

The Senior Class of 1959 started their high school days with nine members: Jim McDaniel, Charles King, Erin Doyle, Leona Dromey, Edwin Vincent, Daryl Stuart, Ardis Larson, Phyllis Robbins, Juanita Jones and Wendell Winkler. During that year we lost one member, Juanita Jones, who moved to Oklahoma.

The following year our class started with only five members. Phyllis Robbins, Erin Doyle, Ardis Larson, Leona Dromey and Jim McDaniel, losing four of our members.

In our Junior year Juanita Jones moved back to Blunt and Carl Chambers transferred from Platte, So. Dak.; this giving us a total of seven members.

We approached our Senior year with seven members, Ardis Larson, Presi; Phyllis Robbins, Vice-Presi; Erin Doyle, Secretary; Juanita Jones, Treasurer; Leona Dromey, Jim McDaniel, and Carl Chambers. We gained one member, Connie Jones, who moved from Phoenix, Arizona to finish school here.

Two students, Jim McDaniel and Ardis Larson have attended school together for their full twelve years.

Siamese pink and turquoise blue were chosen as the Senior Class colors and the class flower, was a red rose. "We have crossed the day, the ocean lies before us" was the class motto.

Senior Class Prophecy

While waiting between planes, at the Blunt airport, in the spring of 1979, I purchased a copy of what had become one of the nation's leading daily newspapers, "The Blunt Bugle", and sat down to catch up on the latest in the "old home town". I wanted especially to learn what had become of the members of the class of 1959.

I noted with interest that "The Blunt Bugle" was now owned and published by none other than Leona Dromey. She came out strongly in an editorial, in this issue, for a five point program of local school improvement: new desks for the assembly, which she declared had been old and battered when she was a student there; drinking fountains that did not give one a shower bath; a larger stage; shorter school days; and longer vacations.

Mayor Jim McDaniel announced that the following week was officially set aside as "Spring Clean Up Week", and he urged all Blunt citizens to help "Make Blunt shine in '79".

A news item concerning Juanita Jones caught my eye. She had just returned from her annual trip into inner Tibet, where she was engaged in a very profitable business of selling old Rock and Roll platters, and second hand record players to the natives, who were convinced that playing them kept away all evil spirits.

Ardis Larson, president of the now internationally famous Larson School of Airline Stewardesses, announced that she personally was making available to Blunt senior girls, 25 free scholarships, to her school. The only requirement for admission being that the applicant must contribute one stuffed animal to Miss Larson's fabulous collection.

Connie Jones was caught by a reporter just as she and her family were boarding a plane at the Blunt airport. She told the reporter that after looking after their wheat farming interests in South Dakota, their cotton farm in the South, their fruit orchards in California, and their cattle ranch in Alaska, they usually spent their winters at their sugar plantation in Hawaii.

The announcement of the discovery of a new super-sonic antibiotic, by Phyllis Robbins, was the talk sensation of the medical world. "What use has been found for your new drug?" the reporter asked her. "None", she replied. "My next project will be the invention of a disease that the drug will cure!"

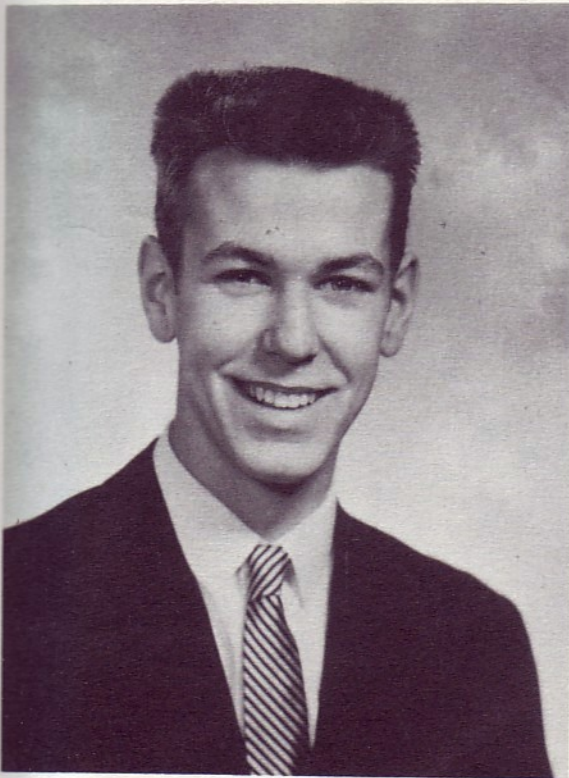

Superintendent of Blunt Schools, Carl Chambers, had just been awarded the Nobel Prize in Agricultural Research, which he carries on as a side-line hobby. After years of experimentation, he had finally come up with a successful cross between a chicken and a pig, which he called a Pigken.

United States Senator from South Dakota, Erin Doyle, in an exclusive interview with a reporter for the Bugle, declared, "Unless my fellow-congressmen see fit to enact into law my pet bill, to pay students to attend high school, I am prepared to start a filibuster that will put all previous filibusters

A fountain pen nib is positioned vertically, pointing upwards. The nib is detailed with fine lines and shading, showing its characteristic shape. The background is a white square with a pattern of small, dark, irregular spots, resembling a starry night sky. This white square is centered on a solid green background. The word "AUTOGRAPHS" is written in a bold, black, serif font across the middle of the white square, partially overlapping the pen nib.
